

1971 CENSUS OF CANADA

RECENSEMENT DU CANADA 1971

Population

MARITAL STATUS
BY AGE GROUPS

Population

ÉTAT MATRIMONIAL
PAR GROUPE D'ÂGE

INTRODUCTION

Data in this report, showing marital status classifications (single, married, widowed and divorced) cross-classified by five-year age groups and sex, were obtained from 1971 Census returns. Distributions are shown for the urban, rural non-farm and rural farm population of Canada and for the provinces, and census metropolitan areas.

The "married" classification in these tables includes all married persons whether living together or living apart unless a divorce has been obtained. Age classifications are based on the number of completed years of age at last birthday prior to June 1, 1971. Respondents were asked to report their month and year of birth which was converted by mechanical means to age at last birthday.

Definitions of geographical terms (e.g. urban-rural, farm population) can be supplied on request. They also appear in most reports of earlier issues of the Volume I series.

The 1971 Census figures in this report have been subjected to a confidentiality procedure to prevent the possibility of associating small figures with any identifiable individual. The particular technique used is known as "random rounding". Under this method, all last or "unit" digits in a table (including all totals) are randomly rounded (either up or down) to "0" or "5". This technique provides the strongest possible protection against direct, residual, or negative disclosures without adding any significant error to the census data. However, since totals are independently rounded they do not necessarily equal the sum of individual rounded figures in distributions. Also, minor differences can be expected for corresponding totals and cell values in various census reports.

(See inside back cover for additional information.)

The statement below shows population fifteen years of age and over by marital status, specified age groups and sex for Canada in the 1971 Census, and a comparison of percentages based on marital status totals in 1966 and 1971.

Ce bulletin présente les résultats du recensement de la population de 1971 en ce qui concerne la répartition de la population selon l'état matrimonial (célibataires, mariés, veufs et divorcés) par groupe d'âge quinquennal et par sexe. Les résultats sont donnés pour les régions urbaines et les régions rurales agricoles et rurales non agricoles du Canada entier et pour les provinces et les régions métropolitaines de recensement.

Dans ces tableaux, les personnes mariées comprennent toutes les personnes mariées, qu'elles vivent ensemble ou qu'elles soient séparées, sauf si un divorce a été obtenu. L'âge est exprimé en nombre d'années révolues au dernier anniversaire avant le 1^{er} juin 1971. Les recensés devaient indiquer le mois et l'année de leur anniversaire, renseignement qui était ensuite converti par des moyens mécanographiques en âge au dernier anniversaire.

Les définitions des termes géographiques (par ex. rural-urbain, population agricole) seront fournies sur demande. Elles sont en outre données dans la plupart des publications antérieures de la série du volume I.

Par souci de confidentialité, les chiffres de 1971 publiés ici ont été soumis à une formule qui garantit l'impossibilité d'associer des chiffres de faible importance à une personne reconnaissable. Cette technique particulière s'appelle l'"arrondissement aléatoire". Grâce à cette méthode, tous les derniers chiffres, c'est-à-dire les chiffres des unités, des tableaux (y compris tous les totaux) sont arrondis de façon aléatoire (vers le haut ou vers le bas) à "0" ou à "5". Cette technique assure la protection maximale contre la divulgation directe, négative ou par recoupements, sans ajouter d'erreur significative aux données. Toutefois, puisque les totaux sont arrondis séparément, ils ne sont pas nécessairement égaux à la somme des chiffres individuels arrondis dans les distributions. De même, il faut s'attendre que les totaux et les autres chiffres correspondants dans divers bulletins du recensement présentent quelques légères différences.

(Voir à l'intérieur de la couverture arrière pour d'autres renseignements.)

L'état ci-après montre la population de 15 ans et plus selon l'état matrimonial, certains groupes d'âge et le sexe pour le Canada, au recensement de 1971 ainsi qu'une comparaison des pourcentages fondée sur les chiffres de 1966 et de 1971.

MEASURES OF RELIABILITY

The estimates of the mean square error (MSE) given in this report for the stated sets of characteristics include errors due to such things as response, processing and (where applicable) sampling errors, but do not include coverage errors. These estimates of reliability are published in order to give an indication of the level of error only and are not meant for use in hypothesis testing or detailed analysis. Moreover, the error estimates are primarily applicable to single characteristics. If reliability estimates are required for cross-tabulated characteristics, from these and other sets, the largest mean square error for the characteristics included in the cross-classification should be used.

The estimates of reliability given in the tables are the square root of the mean square error (or root mean square error). When using these figures, the user can be reasonably certain that, for the enumerated population, the true value lies within plus or minus twice the root mean square error (e.g., for a figure of 100 the range would be 100 ± 13.8) and virtually certain that it lies within plus or minus three times the root mean square error (e.g., for the same figure of 100 the range would be 100 ± 20.7).

MESURES DE FIABILITÉ

Les estimations de l'erreur quadratique moyenne (E.Q.M.) données ici pour ces ensembles de caractéristiques peuvent être entachées d'erreurs de réponse, d'exploitation et (dans certains cas) d'échantillonnage, mais jamais d'erreurs d'observation. Ces estimations de fiabilité sont publiées dans le seul but de fournir une indication du niveau d'erreur; elles ne sont donc pas destinées à vérifier des hypothèses ni à servir dans une analyse détaillée. De plus, les erreurs d'estimation s'appliquent principalement à des caractéristiques isolées. S'il est nécessaire d'établir des estimations de fiabilité pour les caractéristiques qui doivent entrer dans des tableaux à entrées multiples (qu'elles proviennent de ces ensembles ou non), il faudra utiliser l'erreur quadratique moyenne la plus élevée pour les caractéristiques qui figurent dans le tableau.

Les estimations de fiabilité présentées dans les tableaux sont la racine carrée de l'erreur quadratique moyenne (écart quadratique moyen). L'utilisateur peut donc être raisonnablement sûr que, pour les personnes dénombrées lors du recensement, la vraie valeur se situera entre plus ou moins deux fois l'écart quadratique moyen (par ex., pour un chiffre donné de 100, la limite de fiabilité serait 100 ± 13.8); il peut être également presque certain que cette valeur se situera entre plus ou moins trois fois l'écart quadratique moyen (par ex., pour un chiffre donné de 100, la limite de fiabilité serait 100 ± 20.7).

Reliability Estimates for Marital Status
Estimations de fiabilité – État matrimonial

Census estimate — Estimation du recensement	100	500	1,000	5,000	10,000	50,000	100,000	500,000	1 million	5 million — millions	10 million — millions

Publications of the Census of Canada, 1971

This report is one of the Volume Series of publications of the 1971 Censuses of Population, Housing and Agriculture. Altogether, there are some 225 reports in this series prepared in such a way that by removal of their covers the contents can be combined to form the materials comprising the 6 volumes and 25 separate volume parts in the entire series. A hard-covered binder, suitably titled, is included in the composite price to purchasers of the complete set of reports for any given volume part.

Catalogue of reports

A catalogue is available which describes the individual reports in the Volume Series of 1971 Census publications as well as reports in other series (i.e., Advance Series, Census Tract Series, and Special Series). The catalogue also includes a price list and an order form. A copy of this catalogue may be obtained from Publications Distribution, Statistics Canada, Ottawa K1A 0T6. For further information on census publications, address your inquiry to Information Division, Statistics Canada.

How to order reports

Orders for reports may be sent to Publications Distribution, Statistics Canada, Ottawa K1A 0T6, or to Publishing Division, Information Canada, Ottawa K1A 0S9. Enclose payment with your order in the form of a cheque or money order made payable to the Receiver General of Canada. If more convenient, census publications may be ordered from Information Canada bookstores in Halifax, Montreal, Ottawa, Toronto, Winnipeg, or Vancouver. For other details concerning deposit accounts, bulk orders, etc., contact Publications Distribution, Statistics Canada.

Other forms of publication

In addition to the tabulated results of the 1971 Census published in reports and bulletins, a large number of tables will be issued to users as copies of computer print-outs. These will also be available in microform. A variety of statistical tables may be purchased on computer "summary" tapes for further computer analysis by users. Details of the content, prices, and availability of census tabulations in these output media may be obtained from the User Inquiry Service, Census Division, Statistics Canada, Ottawa K1A 0T7.

Special tabulations

To the extent that confidentiality constraints permit, Statistics Canada will produce for users at cost, special tabulations not already included in the planned tabulation programme. A standard User's Request Form on which to outline precise tabulation requirements and to request time and cost estimates may be obtained from the User Inquiry Service of the Census Division of Statistics Canada.

Maps and geographic files

Large-scale maps may be purchased to show the boundaries of enumeration areas (i.e., the territory covered by each Census Representative in taking the census), as well as small-scale maps of census divisions and other statistical areas. Supporting documentation relating to the census geographic files (i.e., place names, codes, etc.) are available in tabular form identifying the component enumeration areas of administrative and statistical units (e.g., towns, villages, municipalities, tracts). Further details, including costs to users, may be obtained from the User Inquiry Service of the Census Division of Statistics Canada.

Publications du recensement du Canada de 1971

Le présent bulletin fait partie de la série des volumes des recensements de la population, du logement et de l'agriculture de 1971. Cette série compte au total environ 225 bulletins présentés de telle sorte qu'en retirant leur couverture l'utilisateur peut les réunir et constituer ainsi les 6 volumes de la série, qui comprennent 25 parties distinctes. Un auto-relieur à couverture rigide portant le titre approprié est compris dans le prix d'achat de la série complète des bulletins constituant une partie de volume.

Catalogue

On peut se procurer un catalogue qui décrit chaque bulletin de la série des volumes du recensement de 1971, ainsi que les bulletins des autres séries (série préliminaire, série des secteurs de recensement et série spéciale). Le catalogue contient également une liste de prix et une formule de commande. On peut obtenir un exemplaire de ce catalogue en s'adressant à la Distribution des publications, Statistique Canada, Ottawa K1A 0T6. Pour tout renseignement complémentaire sur les publications du recensement, s'adresser à la Division de l'information de Statistique Canada.

Commandes de bulletins

Les commandes de bulletins peuvent être envoyées à la Distribution des publications, Statistique Canada, Ottawa K1A 0T6, ou à la Division de l'édition, Information Canada, Ottawa K1A 0S9. Toute commande doit être accompagnée d'un chèque ou d'un mandat établi à l'ordre du Receveur général du Canada. On peut aussi commander les publications du recensement aux librairies d'Information Canada de Halifax, de Montréal, d'Ottawa, de Toronto, de Winnipeg et de Vancouver. Pour plus de détails sur les comptes de dépôt, les commandes en gros, etc., s'adresser à la Distribution des publications, Statistique Canada.

Autres formes de publication

En plus des diverses publications contenant les résultats du recensement de 1971, de nombreux tableaux seront mis à la disposition des utilisateurs sous forme d'états mécanographiés. Ces tableaux seront également disponibles en microcopie. Les utilisateurs désireux de faire des analyses par des moyens mécanographiques pourront également se procurer un large éventail de tableaux statistiques sur bandes "sommaries". Pour tout renseignement sur le contenu, le prix et la disponibilité des résultats du recensement sur ces supports, s'adresser au Service-utilisateurs, Division du recensement, Statistique Canada, Ottawa K1A 0T7.

Totalisations spéciales

Dans la mesure où le respect du secret des données le permettra, Statistique Canada établira, à l'intention des utilisateurs qui en acquitteront les frais, des totalisations spéciales qui ne font pas encore partie du programme d'exploitation prévu. On peut obtenir auprès du Service-utilisateurs de la Division du recensement de Statistique Canada une formule normalisée sur laquelle l'utilisateur précisera ses besoins et demandera une estimation du délai et du prix.

Cartes et fichiers géographiques

Les utilisateurs pourront se procurer des cartes à grande échelle indiquant les limites des secteurs de dénombrement (c.-à-d. des territoires recensés par chaque représentant du recensement) ainsi que des cartes à petite échelle des divisions de recensement et des autres secteurs statistiques. Les documents constituant les fichiers géographiques (noms, codes, etc. géographiques) sont disponibles sous forme de tableaux présentant les différents secteurs de dénombrement qui constituent les unités administratives et statistiques (par ex., villes, villages, municipalités et secteurs de recensement). Pour plus de détails et pour une indication des frais, s'adresser au Service-utilisateurs de la Division du recensement de Statistique Canada.
